RE: Workforce and Economic Development Assigned Monitors

Greetings Colleagues and Happy New Year!

This memo is to inform you that the Workforce and Economic Development Division is moving to monitoring by regional portfolios. As many of you know, the move to regional portfolios has already been implemented in Education Services and Support with improved service to the field. We appreciate your patience as we work to align practices within the Chancellor's Office in achievement of Vision for Success goals.

To more equitably distribute the monitoring load, we are utilizing the 10 regions structure. Please note that the current assignments will continue to evolve as staff vacancies are filled within the Workforce and Economic Development Division, and as the Apprenticeship and Adult Ed programs are also phased-in later this year.

As we begin this new structure we encourage you to use the NOVA help desk to submit requests as the system will automatically route your request to the appropriate monitor. We thank you in advance for your cooperation.

Below are the monitor assignments and contact information. For a list of the colleges assigned to each region click [here](#).
