NOTES

- Giselle presented PPT
- Adele presented Labor Market Data
- Questions:
 - Are (final) funding allocations based on points.
 - Ans: No. Once the 75 points are reached, the Selection Committee determines funding allocations.
 - I have a question regarding the AME slide and potential inclusion in the app.
 - Ans: we realize that these programs are large in K12. Focus on the skills taught and pay attention to your grant partners, especially with work-based learning.
 - Adele said that Ag will be added to the undersupply list
 - An LEA can reach the 75 point threshold in a variety of ways, without getting into the nuances of details being reviewed here. The question is, to what extent is the selection committee going to prioritize or award funding related to these details?
 - Ans: The Selection Committee can give suggestions (as contained in this PPT), but they don't have the ability to make final funding recommendations until after they know how many applications were received and the amount of financial "ask" in these applications.
 - What are examples of uses of grant money in middle school or K-6?
 - Ans: K12 SWP funding is not available for K6 at this time.
 - Can you submit two separate applications that divides up the sectors up?
 - Ans: Yes.
 - Is the California Needs Calculator link included in the resources, please? Is it zip code or micro-region specific?
 - Ans: we will include link to the resource
 - When will these reports be made available to us?
 - Ans: Links are in the chat and embedded in the PPT. The PPT will be sent out to all attendees.
